1. [The firm Gleichmann und Hopf in Staaken near Berlin is producing high quality quartz glass and quartz glass instruments. Among the items produced are quartz vacuum pumps and diffusion pumps. Almost the entire output of pumps goes to Soviet Russia.
2. The firm also produces great quantities (no figures available) of small quartz tubes of about two cm in length and less than one cm in diameter. These tubes are delivered to the Oberspreewerk in Berlin where they are used, it is believed, for radar instrument production. (All inf).
